

U.S. Women's Mid-Amateur Championship

Quick Quotes

Saturday, September 14, 2019

Julia Potter-Bobb

"I'm pretty confident that's my lowest score I've had at a USGA event. I'm incredibly happy with how I played. It could have been better, but everyone always says that. I'm very happy with being 4-under going in tomorrow."

"You know... the group vibe... we're all really competitive and we want to win. We're great competitors. You felt that through the entire group. Those two are so kind and so generous and fun to play with. I feel like we had a really great group out there. We had a really great time and I'm excited to play with them again tomorrow."

"I had a really good conversation with my husband, who is caddying for me this week, on the practice putting green. I know these greens are poa annua and he grew up on greens that were the same way. So we had a brief conversation on how to putt on them and play the break. Which of course I will not share because I'm trying to win! But I think that was a big turning point because the last two days during my practice round I just felt like I wasn't getting the putts like I usually do. So just having that quick conversation with him really helped."

"The longest putt I think I made was really 20 feet. But I made a lot of good 15-footers. If I had a chance to make birdie I either capitalized on it or it would be very close. To me, it was probably one of the best rounds I've had this summer. I'm just hoping to continue that throughout the tournament."

"I think when you're medalist you can go into the match play portion knowing that no one beat me out here stroke-play wise, so that is a big confidence booster, but clearly, people have won this tournament not being medalist. It helps but its not necessary for me or anyone else to succeed here this week."
