

FRIDAY, JULY 7, 2023 – 5 AM WEATHER FORECAST

Heavy mist will continue to affect the early morning hours, before dissipating around 9:30 AM. A thick overcast is responsible for the mist, and will be difficult for the sun to overcome this afternoon. A very tricky wind forecast is in play for the afternoon, but the expectation is for the strengthening of the northwest wind. Gusts between 18 - 27 mph should populate the course, especially between the hours of 3 and 7 PM. We will have to watch closely how the wind reacts today, because it will determine how windy we get for the rest of the weekend. Unfortunately, cloud cover looks to stick around for most of the weekend now, with the potential for additional morning mistings going forward. Classic north Pacific weather, but it won't feel like July.
