

TUESDAY, JULY 4, 2023 – 5 AM WEATHER FORECAST

A wholesale improvement to the forecast is presented. Clouds have proven to stay above us, with only a chance of mist through the mid-morning. Overcast skies stick around throughout the day, accompanied by a gentle west-southwest breeze gusting around 15 mph this afternoon. An overnight return of mist may occur, but the trend for the rest of the week is to be comfortably under the cloud deck during the daylight hours. Wednesday provides a near repeat of today's weather, with a slight uptick in the southern-based winds. By Thursday afternoon, the wind direction becomes northwesterly and adds some velocity. Beware of wind gusts in the 25 mph range Friday and Saturday, accompanied by some increasing afternoon sunshine. Get used to highs right at 60 degrees, because they won't go away!
