

WEDNESDAY, SEPTEMBER 13, 2023 – 6 AM WEATHER FORECAST

The cold front has arrived and he has brought more rain to the party this morning. The rain started this morning around 5 am and we have a chance of seeing some into the afternoon. As of now we have had 0.48 inches of rain this morning with some more to come. As we head into the afternoon our rain chances drop and by the late afternoon go away all together. Our lifted index values still show that lightning is possible this morning as well. Overnight we will keep a slight chance of seeing a passing shower though the night and into the early morning hours. Starting Thursday morning we will be back under the protection of a high pressure system giving us a great day for golf as we will have lots of sunshine with temps in the low 70s and dew points in the low 50s throughout the day. Friday will be under the same protection and looks to be very similar with temps in the low 70s with dew points in the low 50s and winds out of the north at 5 - 10 mph.
