

MONDAY, SEPTEMBER 12, 2022 - 6 AM WEATHER FORECAST

The city of Milwaukee has only had one day near our rain totals since 1986. We look to improve after a morning band of heavier rain, with lighter showers sticking around under cloudy skies. Swirling winds will change nearly by the hour as the cyclone positions itself directly over us and starts to move away later today. Luckily, wind gusts will calm down to a more appropriate 15 mph. After some final back-end precipitation, we look to dry out through Thursday. A particularly sunny afternoon is in store Tuesday!
