

WEDNESDAY, AUGUST 10, 2023 – 6 AM WEATHER FORECAST

This morning we could see rain and lighting is possible this morning as the last of moisture from the Pacific comes in. We will keep our rain chances into the afternoon, but once this comes though we will have some clouds carry over into the afternoon but the sun will show itself and give us a pleasant afternoon with highs in the low to mid 70s. Overnight we could have fog sneak in and carry over into the morning on Friday with lows in the mid 60s. Once we get past the morning hours the sun comes out in full force as we will get into the mid to high 70s in the afternoon with winds from the south at 4 - 8 mph gusting into the mid teens. Overnight on Friday again could see some fog form and carry over into the morning hours on Saturday, but once again once we get past the morning we have great weather with lots of sunshine and highs in the high 70s. Sunday we will see more of the same with lots of sunshine and highs in the high 70s.
