

**MONDAY, AUGUST 7, 2023 – WEATHER OUTLOOK**

This morning we are off to a cool start as we are in the low 60s this morning. Some low clouds and fog are present around the course this morning but they should burn off soon after sunrise this morning. After this bit of cloud cover burns off we are looking at more of the blue skies and sunshine we have had the past few days. Our high today will be in the low 80s to high 70s. Our winds will start off light this morning but jump to the range we are used to at 4 - 8 mph with gusts in the teens. Tomorrow we could see some early morning fog but it would not hang out with us long if it did decide to show up. Later in the morning we will go to mostly sunny with a high in the mid to upper 70s. Wednesday we still have a slight chance of seeing a shower or two throughout the day. We will have some cloud cover throughout the day but we will still get to a high in the mid to upper 70s. As of now we are still watching our fog chances again on Thursday, but it should be short lived if any appears that morning. This weekend still looks to be nothing but clear skies and highs in the high 70s to low 80s.
