LIBERTY CORNER, N.J. (May 30, 2023) – The United States Golf Association (USGA) today announced that Jupiter Hills Club, in Tequesta, Fla., will be the host site for two USGA championships: the 2027 U.S. Mid-Amateur and the 2032 U.S. Women's Mid-Amateur. This will be the third and fourth USGA championships held at the club.

"The USGA is pleased to return to Jupiter Hills Club and continue a partnership that enthusiastically supports amateur competition on many levels," said Mark Hill, USGA managing director, championships. "We know that the club's courses will challenge the best male and female mid-amateurs from around the world and that South Florida will embrace these two championships."

Jupiter Hills Club's Hills Course will be used for both stroke-play qualifying and the match-play portion of the 2027 U.S. Mid-Amateur and the entire 2032 U.S. Women's Mid-Amateur. The course was designed by George Fazio and opened for play in 1970. Fazio, who had three top-five finishes in the U.S. Open, including a playoff loss to Ben Hogan in 1950 at Merion Golf Club, partnered with auto industrialist William Clay Ford Sr., comedian and actor Bob Hope and William Elliott to purchase the land where the course was built in the late 1960s. Tom Fazio, George's nephew, renovated the Hills Course in 2006 and again with his son, Logan, in 2020.

"Jupiter Hills is proud and honored to continue our long-standing relationship with the USGA and host this impressive series of amateur championships," said Michael Ruane, club president. "We have an allegiance to honor the amateur game. Jupiter Hills anticipates that these elite fields of players will be fully challenged at the U.S. Mid-Amateur in 2027 and the U.S. Women's Mid-Amateur in 2032 when exemptions into the U.S. Open and U.S. Women's Open go to the respective champions."

The Hills Course, which sits at the top of Seminole Ridge, a natural 60-foot sand ridge that traverses the venue, was the host site for the 1987 U.S. Amateur Championship, won by Billy Mayfair, 4 and 3, over Eric Rebmann. Mayfair became the first player to win the U.S. Amateur and U.S. Amateur Public Links titles, having won the 1986 APL.

Jupiter Hills' Village Course will serve as the U.S. Mid-Amateur's stroke-play co-host. Designed by Tom Fazio, the course opened for play in 1982. Fazio renovated the course in 1999. The 2018 U.S. Amateur Four-Ball Championship was conducted on the Hills and Village courses. Garrett Barber and Cole Hammer defeated Chip Brooke and Marc Dull, 4 and 3, to win the final match.

Additionally, the club hosted the 2008 and 2013 Florida State Amateurs, conducted by the Florida State Golf Association, and was the site for U.S. Open final qualifying in 2007, 2008 and 2017.

The 2027 U.S. Mid-Amateur and 2032 U.S. Women's Mid-Amateur will be the 23rd and 24th USGA championships contested in Florida.

The U.S. Mid-Amateur was first played in 1981. The championship is open to amateur golfers age 25 and older with a Handicap Index® not exceeding 3.4. The winner of the championship earns an exemption into the following year's U.S. Open, which was first awarded to the 2017 champion. The field of 264 players will compete in two rounds of stroke play, resulting in the low 64 scorers advancing to match play.

First played in 1987, the U.S. Women's Mid-Amateur is open to female amateurs age 25 and older with a Handicap Index® not exceeding 9.4. The championship field features 132 players who compete in two rounds of stroke play, after which the field is reduced to the low 64 scorers for match play. The winner is exempt into the following year's U.S. Women's Open.

About the USGA

The USGA is a nonprofit organization that celebrates, serves and advances the game of golf. Founded in 1894, we conduct many of golf's premier professional and amateur championships, including the U.S. Open and U.S. Women's Open. With The R&A, we govern the sport via a global set of playing, equipment, handicapping and amateur status rules. The USGA campus in Liberty Corner, N.J., is home to the Association's Research and Test Center, where science and innovation are fueling a healthy and sustainable game for the future. The campus is also home to the USGA Golf Museum, where we honor the game by curating the world's most comprehensive archive of golf artifacts. To learn more, visit usga.org.
