All assets contained herein are the property of the United States Golf Association and are to be used solely in conjunction with USGA news and information. They are not to be used in conjunction with non-USGA materials or for commercial purposes of any kind. Caption information can be found in the File Info field in Photoshop. All photos must carry the copyright credit (©USGA/photographer's name).

\*Please Note: The photos that we are sending to you are either high quality JPEG compressed files or TIF files in RGB color space. They should be launched in Adobe Photoshop for best quality reproduction. In an effort to provide to you the highest quality images, unless otherwise noted, we have only made basic color corrections and have not sharpened the images. By doing this, we are allowing you or your prepress to make the enhancements and proper amount of sharpening appropriate for your specific needs. The RGB photo files can be easily converted to CMYK or Grayscale in Adobe Photoshop if necessary.

About the USGA Photo Archive: The United States Golf Association's photo archive has one of the most comprehensive collections of golf photography in the world. The collection contains more than 500,000 images, including original black-and-white prints from the beginning of golf and photography in the United States, as well as an extensive collection of contemporary images. Each year, more than 15,000 images are added to the collection from our film library, championships and other assignments. Members of the media can apply for an account to perform online searches 24 hours a day, 7 days a week on [digitalarchives.usga.org](http://digitalarchives.usga.org). If you are interested in learning more about the USGA Photo Archive or have a photo request, please contact us at [photorequests@usga.org](mailto:photorequests@usga.org).
